Subject The DPP has been sent to the State and EPA

Dear Friends

As of this morning, the DPP has been sent to the State and EPA formally for their concurrence to release the document for public review. The letter asks that they transmit that concurrence within 14 days of the letter date, or April 6. At this point, based on my conversations with Steve Gunderson of CDPHE and Tim Rehder of EPA, and based on staff to staff conversations, I'm expecting to receive that concurrence. So, I'd like to suggest to Corsi and our CED people that we make the necessary preparations for starting a 60-day comment period. The start date that I'd suggest is Wednesday, April 8, ending Monday, June 8. Can you guys let me know if you think those dates work in the context of the CAB meeting schedules? Also, for the attorneys do we need a public hearing for the DPP given that it's a RFCA decision document?

A copy of the DPP sent to the regulators is attached. It's a read-only file. I've also sent copies of this version to the CAB, RFLII, Mickey Harlow of Westminster, Hank Stovall of Broomfield, and Victor Holm, who chairs the CAB closure subcommittee. Please let me know if anyone thinks I've left someone out on this distribution.

Keep your fingers crossed. It looks like we'll cross a big bridge here in the next couple of weeks.

Thanks

JR DPP doc
